"On this basis," he added, "I was prepared to go the limit. I believed my brother was admirably equipped for the position. I believed in his integrity, his fearlessness, and I believed no one could bull-doze or use him. The principal thing to be ob-viated was the influence of any candiviated was the influence of any candidate of any monetary interest."

#### Hanna's Big Gift.

Dan R. Hanna of Cleveland, backer of the Roosevelt forces in Ohio this year, as the president's brother was of the Taft forces, followed Mr. Taft on the witness stand. He testified that be gave \$177,000 to the support of the Roosevelt campaign for nomination this year. Of this sum \$50,000 went to the Roosevelt national committee; \$50,000 to Walter F. Brown, manager of the Roosevelt Ohio campaign, and another \$77,000 to the worker. another \$77,000 to the work of re-organization in Ohio.

Mr. Brown said it had gone for "organization work" that should not properly be charged to the Roosevelt campaign.

### Details Expenditures.

Charles P. Taft testified that the \$159,339 which the 1908 election cost him was but a part of what he offered to aid his brother in securing the election. He gave to Chairman Hitchcock of the national committee \$271.977, of which Mr. Hitchcock returned \$150,000 that it had not been necessary to spend.

Referring to the 1908 election cam-naign, Senator Pomerene wanted to know if Mr. Taft had "underwritten" certain expenditures in the New York campaign with the understanding that the money was to be repaid.

#### BERLIN BELIEVES WAR INEVITABLE

BERLIN, Oct. 9 .-- A general war in the Balkans practically has been inaugurated in the opinion of both diplomatic circles and the press in Germany. At the foreign office it is thought the attitude of the Balkan peoples leaves only the barest hope of the measures taken by the powers proving successful, as any concessions made by the Balkan governments would threaten the security of the thrones of Bulgaria, Servia, Montenegro and Greece. For this reason their governments dare not yield.

One of the leading Berlin banks received a telegram today from Belgrade, stating that the declaration of war by Servia would probably be delivered immediately. Servian troops, it was stated, were being rushed by forced marches to the frontier.

The Servians and Turks have already come into contact, according to the rerated in the opinion of both diplomatic

The Servians and Turks have already come into contact, according to the report of a special corespondernt.

Another telegram from Belgrade says the reply of the Servian premier. M Pasitch, to the Austro-Russian representations, was tantamount to rejection. He declared that the Montenegrin declaration of war had created a new situation which was decisive for Servia's further action. The solidarity of the Balkan silles, he said, would be maintained at all costs, and the popular feeling in Servia was so strong it would not permit the government to depart from the course on which it had embarked.

There was almost a repetition of the scenes which took place on "Black Priday," October 1, on the Bourse today, under the conviction that a general war in the Balkans was inevitable. There was an all-around fall from two to eight points, and the slump was checked only slightly just before the close.

Mobilization Rapid.

#### Mobilization Rapid.

LONDON, Oct. 2 — News from Sofia says that the rapidity of the concentration of the army has exceeded all expectations, and developments will now be very rapid. Everything in connection with the mobilization was worked with the utmost smoothness, and there has been a lack of confusion at the war office. The stock market was somewhat more affected by the Balkan situation owing to the weakness of the continental bourses and principally of Parls, from which selling orders were rather liberal.

PARIS. Oct. 2.—"A false step, a suspicion and all Europe is aflame," says the Figero today in commenting on the Balkan war and the connection with it of the visit of Sergius Sazonoff, the Russian foreign minister, to Berlin. The paper regards the visit of vant importance, for it is directed to the allaying of any suspicions existing between Russia and Austria. The mutual conference of these nations existed on paper, says the Figero, but was not enough. As a result of M. Sazonoff s visit it is believed that Russia will endeavor to influence Servia not to anger Austria by the invasion of Novipazar.

The French government learned today that before the Russian and Austrian ministers made their representations to the Montenegrin government at Catting, the Servian and Grecian ministers had visited the Montenegrin foreign office and visited that the declaration of war should

The representations of the powers to the Ottoman government probably will be made by the embassadors at Constantinople today with the feeble hope that the irre lighted by Montenegro may be extinguished.

#### Turkey Awaits Events.

CONSTANTINOPLE, Oct. CONSTANTINOPLE, Oct. 9.—The Turkish government awaits events with calm assurance, according to Noradundghian Effendi, the Ottoman foreign minister. In an interview given to the Assolcated Press today he said:

"We face the future with perfect confidence. I should like to point out, however, that the declaration of war by Montenegrins was made contrary to the practice adopted by all civilized states. It went against the stipulation of The Hague convention of which Montenegro was a signatory.

"In the first place, no attempt was made to seek the good offices of a third party in order to find a means of avoiding conflict.

The Turkish government has decided to make a selection from among the Greek vessels detained in Turkish ports and will hold those best suited for military transport purposes and release the others.

#### Summoned to Battle.

Summoned to Battle.

CETTINJE, Montenegro, Oct 2.—King Nicholas has issued a proclamation summoning the Montenegrins to go immediately to the assistance of their brethren in old Servia, where, he declares, women and children are being massacred.

"Montenegro has hoped to secure the liberation of the Servians in Turkey without the shedding of blood, but peaceful endeavors proved unavailing." continues the proclamation, "and no other recourse was left but to take up the sword.

"We are assured in this holy undertaking of the sympathy of the whole civilized world, and we will have the loyal assistance of the kings of Servia, Bulgaria and Greece, and their peoples, who have ranged themselves with the Montenegrins like brothers."

The proclamation concludes:

"Montenegro is attacking Turkey not from motives of arrogance, but inspired by a noble resolve to prevent the final extermination of her brethren."

ATHENS. Oct. 2.—Representations on behalf of the powers of Europe were made to the Greek government yesterday by the Austrian and Russian ministers.

The conference was of a friendly nature, the Austrian and Russian ministers declaring that it would be imprudent in the highest degree for the Balkan states to take any action against Turkey. They would by ac doing risk a great deal and never succeed in obtaining for the Christians in Macedonia any more than that which the powers were determined to get for them.

#### Want Something Definite.

SOFIA, Oct. 2.—The Bulgarian cabinet, after considering the Russo-Austrian note, issued a semioficial statement today in which it says the Bulgarian ministers have unfortunately falled to find what they expected, namely, precise details of the reforms which the powers have proposed to Turkey and of guarantees for their execution. Before taking any decision on the subject the Bulgarian cabinet will consult the Greek and Service and Ser
